SUMMARY REPORT
FT 930-E

February 1966

FOR RELEASE
April 29, 1966

EXPORT TRADE BY COMMODITY

The Bureau of the Census, Department of Commerce, released today a report showing leading commodities making up the \$2,264.0 million February 1966 total for U.S. exports of domestic merchandise, unadjusted for seasonal change.^{1 2} The total reported for January 1966 was \$2,105.3 million.³

Of the overall February 1966 total, Schedule B Section Machinery and Transport Equipment amounted to \$875.9 million. Leading commodity groups or individual commodities within this Section were: Power generating machinery (including engines), \$82.7 million; agricultural machinery and parts and tractors (excluding tractor parts), \$49.5 million; office machinery and computers, \$40.4 million; construction, excavating, mining machines and related machinery and parts (excluding contractors' wheel type tractors but including industrial type), \$70.8 million; automobile and other road motor vehicles and parts (parts exclude tires, engines, and electrical parts) \$189.4 million; and aircraft and parts (parts excluding tires, engines, and electrical parts), \$121.5 million. Exports of Schedule B section Food and Live Animals totaled \$360.5 million. Within this category, leading items were wheat (unmilled) at \$110.1 million and corn (unmilled) at \$73.2 million. Among the principal components of Schedule B Section Manufactured Goods Classified Chiefly by Material were textiles (excluding fibers and clothing) at \$44.2 million and iron and steel (including

pig iron and ferroalloys) at \$44.6 million. The Schedule B Section total for Crude Materials, Inedible, except Fuels, of \$234.5 million reflected among other commodities exports of \$48.9 million of soybeans, except canned or prepared. The remainder of the February overall export total was accounted for by the other six Schedule B Sections.

For the 2-month period January-February 1966, exports of domestic merchandise totaled \$4,369.3 million. Exports of Machinery and Transport Equipment accounted for \$1,673.9 million of this total. Items accounting for the bulk of the 2-month total for this Schedule B section were electric machinery apparatus and appliances, \$271.8 million; automobile and other road motor vehicles and parts (parts exclude tires, engines and electrical parts) \$355.0 million; aircraft and parts (parts exclude tires, engines and electrical), \$192.9 million; power generating machinery (including engines), \$142.4 million; construction, excavating, mining machines and related machinery and parts, \$140.8 million; agricultural machinery and parts and tractors (excluding tractor parts), \$98.1 million; and office machinery and computers, \$85.7 million.

The January-February total for Schedule B section Food and Live Animals was \$698.0 million of which wheat (unmilled represented \$201.4 million; corn, \$140.2 million; fruits, nuts, and vegetables, except oil nuts, \$75.1 million; rice, \$40.1 million; and animal feeds, \$56.8 million. Schedule B section Manufactured goods classified chiefly by material amounted to \$516.4 million including iron and steel mill products \$86.2 million; nonferrous base metals (excluding ore, scrap, uranium and silver, \$83.9 million; textiles, (excluding fibers and clothing) \$84.4 million; and paper and manufactures including newsprint, \$64.2 million. Inedible crude materials, except fuels totaled \$466.1 million including soybeans, except canned, \$103.5 million; logs and lumber \$42.2 million; raw cotton excluding linters and waste, \$66.4 million, metal ores concentrates and scrap, \$53.5 million and wood pulp, \$34.3 million.

Other Schedule B section totals for the period January-February were as follows: Chemicals, \$373.8 million; miscellaneous manufactured articles, \$263.5; mineral fuels, lubricants, and related materials, \$132.7 million; Beverages and tobacco, \$72.3 million; animal and vegetable oils and fats, \$58.1 million; and commodities and transactions not classified according to kind, \$114.5 million.

EXPLANATION OF STATISTICS

COVERAGE: Export statistics include government as well as nongovernment shipments to foreign countries. The export statistics, therefore, include Department of Defense Military Assistance Program-Grant-Aid shipments (for which separate figures are shown in the footnotes of this report), Mutual Security Program economic assistance shipments, and shipments of agricultural commodities under P.L. 480 (The Trade Development and Assistance Act of 1954, as amended) and related laws. (The separate information which is available on exports under P.L. 480 and related laws may be obtained from the Economic Research Service and the Foreign Agricultural Service of the Department of Agriculture.) Shipments to U.S. armed forces and diplomatic missions abroad for their own use are excluded from the export statistics. U.S. trade with Puerto Rico and U.S. possessions is not included in this report, but the export trade of Puerto Rico with foreign countries is included as a part of the U.S. export trade. Merchandise shipped in transit through the United States between foreign countries, not entered as imports, is not included in the export statistics.

VALUATION: The valuation definition used in the export statistics is the value at the seaport, border point, or airport of exportation. It is based on the selling price (or cost if not sold) and includes inland freight, insurance, and other charges to the port of exportation. Transportation and other costs beyond the United States port of exportation are excluded. None of the values have been adjusted for changes in price level.

RELIABILITY: The statistics presented in this report are based partly on sample data and therefore are subject to sampling variation that may cause them to differ somewhat from the results which would have been obtained from processing all export documents. For the figures shown in this report the sampling variability can be ignored since the probable variability due to sampling is either less than \$50,000 (the largest variation from rounding of figures) or less than a trivial percentage of the individual totals shown. In addition to the effects of sampling variation, the data in this report are subject to errors from such sources as the carry-over of data from month to month, errors in reporting or processing, the estimation of shipments valued under \$100 (estimated data for such shipments are included in the over-all export total and in the totals for "Commodities and transactions not classified according to kind" and "Low-value" shipments, but excluded from other totals), and the omission of low-value parcel post shipments. Although the effect of such errors on the rounded totals in this report is probably small, the possibility of inaccuracy should be taken into account, particularly in using figures of relatively small magnitude.

Further information regarding coverage, valuation, compilation procedures and precision of export data is contained in the foreword of Reports FT 410 and FT 420. For complete statement, see foreword in Foreign Commerce and Navigation of the United States.
